

Message from Editorial Desk

Greetings from the Editorial Board of IJERST! We extend our heartfelt gratitude to our dedicated readers, brilliant authors, esteemed reviewers, and the distinguished members of our editorial board. You have all played an integral role in contributing to this highly esteemed repository of engineering research and sustainable technologies.

The Journal Division at Dr. M.G.R. Educational and Research Institute was established with a clear mission: to produce high-quality journals spanning a diverse range of disciplines, including Dentistry, Medicine, Engineering & Technology, and Humanities & Science, all under the collective banner of "Dr.M.G.R. Journals."

In our relentless pursuit of advancing sustainability within the realm of Engineering and Technology, we are thrilled to introduce our latest addition, the "International Journal of Engineering Research and Sustainable Technologies" (IJERST), aligned with the UN Sustainable Development Goals. This journal is proudly published by MGRPEN2MIND Publishing House.

In honor of our Founder Chancellor's birthday, we are delighted to announce the upcoming launch of the Dr. M.G.R Journal Website. Concurrently, we eagerly anticipate the release of the inaugural issue of IJERST in print, with the honor of this launch ceremony to be graced by our esteemed President, Er.A.C.S.Arunkumar. His profound insights and contributions to the field of engineering add immense significance to this occasion.

The University Journal Division expresses deep appreciation for the unwavering support from the Heads of the Engineering and Technology Departments and the IJERST Coordinators in bringing this inaugural issue to the public. We look forward to sharing this momentous milestone with all our stakeholders.

On behalf of Editorial Team

Dr.V.RameshBabu

Managing Editor

Dean-University Journal

Dr.M.G.R. Educational and Research Institute
