

Message from Editorial Desk

25th September 2024

Dear Readers, Researchers, and Contributors,

It is with great pleasure that we present the latest edition of the International Journal of Engineering Research and Sustainable Technologies (**IJERST**), **Volume 2, No. 3, 2025**. This issue continues our mission to spotlight pioneering research and forward-thinking solutions in engineering and sustainability from distinguished scholars worldwide. As the world faces pressing challenges in engineering and technology, the importance of sustainable solutions has never been more critical, and we are proud to contribute to this essential dialogue.

In this edition, we are thrilled to feature a diverse range of articles that not only showcase novel engineering advancements but also highlight the pressing need for sustainable practices in today's rapidly evolving landscape. Each contribution reflects the dedication of the global research community to addressing real-world problems through innovation and collaboration.

At **IJERST**, our commitment to academic rigor and integrity is unwavering. As part of our ongoing efforts to enhance the impact of our journal, we are excited to announce that we are nearing the implementation of a new citation indexing system, which will greatly improve the accessibility and visibility of our published articles. We are also working towards expanding our journal's presence by exploring partnerships with prominent academic databases and platforms, ensuring that the research we publish reaches a wider audience.

Looking ahead, we have exciting plans to further elevate **IJERST**'s role in the global research community. These include thematic special issues, online forums for interactive discussions, and collaborative projects with leading universities and institutions. Our aim is to continue fostering a platform where interdisciplinary collaboration thrives, and where innovative ideas lead to impactful, real-world change.

We extend our heartfelt gratitude to all the authors, reviewers, and editorial board members for their ongoing support and dedication. It is through your hard work and contributions that we continue to build a vibrant, sustainable research community.

We thank you for your continued readership and encourage you to submit your insightful research for future issues. Your contributions are vital in shaping the future of sustainable engineering.

Warm regards,

On behalf of Editorial Team

Dr.V.RameshBabu
